**Seminars for German teachers of our partner regions**

Dear colleagues,

As mentioned in our cooperation agreement in the field of education, we regularly offer seminars for German teachers from our partner regions.

I am pleased to send you today the invitation for the digital summer course 2022:

Also this year it is not possible to offer the summer course in Hannover due to the Corona infection numbers. Therefore, as in the two years before, we have developed a digital course.

The seminar focuses as well on didactics and methodology of teaching "German as a foreign language" as on (Lower Saxon) regional studies.

As the summer course is a multinational seminar with participants from our partner regions, the participants have to use German as a common language.

I invite you to register up to 10 teachers from schools in your region for the seminar in 2022.

The course will take place over several days in June 2022. The exact dates and other important information can be found on the following website:

<https://bildungsportal-niedersachsen.de/europa-internationales/standard-titel-3/sommerkurs>

Please note only that we would like to distribute the places equally among our partner regions and therefore the registration is not yet a commitment. If other partner regions do not take up their places, the number for your region could still increase.

Please inform your teachers that they have to register on their own. Teachers can find the link to register on the page above.

I look forward to welcoming teachers from your region to the digital summer courses 2022!

With kind regards

Torben Kremer
